Alfa Romeo Cuorerosso

12/10/2026

The Cuorerosso ("red heart") is Alfa Romeo's statement of intent at Paris 2026 under the motto "Bellezza necessaria". It is a four-seat coupé 4,700 mm long, 1,980 wide, 1,331 high with a 2,930 mm wheelbase, 1,750 kg and a 0.28 drag coefficient, with the Quadrifoglio's 2.9-litre twin-turbo V6 hybridised, Q4 all-wheel drive, a carbon-fibre driveshaft and Brembo carbon-ceramic brakes. Not a production model, but it will shape the Tonale replacement (around 2028) and the next Giulia.

The **"Liquid Ink"** paint shifts from deep red to black with the light. The Scudetto carries **illuminated triangular elements**, the headlamps are slim LED teardrops with carbon accents, the "teledial" wheels are gold, the tail is a reinterpreted Coda Tronca with an integrated diffuser, and the rear-hinged doors open via a touch control on the roof.

Inside, four bucket seats in black leather and red Alcantara; **regenerated leather with 60% post-industrial waste** and Poltrona Frau nubuck at the contact points; a three-spoke yoke wheel; a backlit OLED display that stays black until touched, and "Cannocchiale Vivente" instruments with Immersivo and Concentrato modes. Light behind the surface, outside and in: the theme of the year.
