Color and Trim

02/04/2009

this new offering, Maier reinforces its position as a vehicle component decorator, integrated with its current offer of research, development and manufacture for new-look style and design. The maierinnovation forums will be held throughout 2009 and customers will asked their opinion on the new centre´s approach and the requirements it should cater for. We´d like you to come and build it with us. The Maier Group RDI Manager
