Latest cars launched with parts developed and manufactured at Maier

02/04/2009

With a length of 4.83 metres, the Insignia is 22 cm longer than the Vectra model it replaces. The new Opel model will also debut the «Epsilon 2» platform, and there will be front and total traction versions available. Maier manufactures the door handles for all the bodywork versions (saloon and estate), together with the hub covers, hubcaps and inside door panel button strips. If you are interested in receiving more information, please submit your enquiry via the finishings section of online request try [url=https://www.maierinnovation.com/consul_ini.php?id_req=7#?subject=Profile%20Update%20Request][b]here[/b][/url].
